Foreword by Director Principal

We are delighted that you have chosen to study at the Dr. BSA Medical College, and we welcome you to this institution, our extended family. Graduate education has been central to our mission since the founding of this college in 2016, and you are an important integral part of this family now

Each and every individual in the campus of the college has worked hard and tirelessly to make your experience of studying medicine a pleasure and to make your experience here, in your journey across the next few years, into an enriching one of academic excellence and intellectual innovation.

To help you succeed in your studies, you will find additional exceptional resources that complement what your academic departments offer, including our outstanding library, laboratories, computer facilities and audio-visual experiences and number of elective postings. We encourage you to explore the full range of educational opportunities in your college: participate in extracurricular activities, attend lectures, demonstrations and practical's and seek out faculty with diverse interests and endeavor to develop your selves into not only brilliant doctors but also lovely human beings with strong ethics and character.

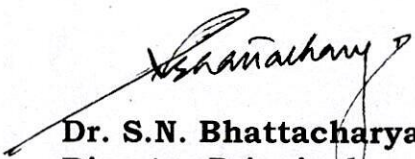

We at the Dr. BSA Medical College are committed to creating an environment in which each of you will grow and thrive. You will be part of a diverse and energetic community of fellow students, faculty, and staff. Their intellectual vitality and imagination will foster your intellectual growth and professional development in ways you may not yet imagine.

Having said that, there are some important issues I would like to bring to the forefront. One is **discipline**. This needs to be maintained strictly as college life is all about self-motivation and learning in this process remaining disciplined is of paramount importance. This means that you are completely responsible for establishing and maintaining a disciplined system in the college. Self discipline, you will find, is essential for effective time management and learning/skilling optimization.

Ragging is another issue to which all of us need to be sensitive about. It is not only degrading and destructive at individual level , but also against the law and to which there is zero tolerance in the college, and by the society at large. In case any student finds himself or herself in a situation in which he or she is uncomfortable due to this problem, please do not hesitate to meet any of the faculty members or the members of the committee constituted for this purpose. You may also put your problem in the **“Ragging Complaint Box”** placed outside at the Library, Ground floor, A-Block, for your convenience or else contact the helplines given on the website for the purpose.

For the senior batch, it is my request to them to refrain from this unsavory and inhuman practice and take this opportunity to guide the fresh batch towards establishing a strong professional base in the college and be a role model for them. To the fresh batch, my advice is to look up to the senior batch and emulate them as role models. There is much good you can learn from them, please selectively learn these and optimize yourselves. For the parents, it is my request to ensure that this issue is impressed on their wards to avoid unnecessary problems.

Get ready for this journey of a lifetime. I wish you all the best for the time to come.

INTRODUCTION

Congratulations on admission in Dr. Baba Saheb Ambedkar Medical College, an upcoming institution of G.N.C.T. of Delhi. This institution started in 2016 and aims at providing quality medical education to young entrants. The college session starts on **15th of November 2022**.

Ragging has been a custom in the Professional Colleges and University Campuses in our country.

Dr. Baba Saheb Ambedkar Medical College has taken adequate measures for prevention and control of ragging. However, due to the ugly incidents of ragging in other colleges of Delhi and the rest of the country reported in the newspapers and media; there is anxiety and fear among the new entrants and their family members. The college would like to alleviate their fear and anxiety and provide a conducive environment for learning more so, during the initial period of the course. Following the Hon'ble Supreme Court's direction, and as teachers we aim to make Dr. Baba Saheb Ambedkar Medical College a ragging free campus.

WHAT IS RAGGING?

"Any disorderly, behavior whether by words spoken or written, or by an act which has the effect of teasing, treating or handling with rudeness any other student, indulging in rowdy or undisciplined activities which causes or is likely to cause annoyance, hardship or psychological harm or to raise apprehension thereof in a fresher or a junior student or asking the students to do any act or perform something which such student will not in the ordinary course and which has the effect of causing or generating a sense of shame or embarrassment, so as to adversely affect the physique or psyche of a fresher or a junior student" Hon'ble Supreme Court.

Thus, ragging includes:

- a) Act of physical and sexual abuse, homo sexual assault, stripping, forcing obscene, and lewd acts, gestures, causing bodily harm or any other danger to health.
- b) Act of abuse by spoken words, emails, snail-mails, public insults, perverted pleasures, vicarious or sadistic feelings from actively or passively participating in the discomfiture to others.
- c) Exploiting the services of junior students for completing the academic tasks by the seniors.
- d) Act of financial extortion or forceful expenditure.
- e) Any act that affects the mental health and self confidence of students.

DIRECTIONS OF THE SUPREME COURT

The Hon'ble Supreme Court has focused to tackle the problem of ragging by the following measures:

1. Primary responsibility for curbing ragging rests with academic institutions themselves.
2. Ragging adversely impacts the standards of higher education.
3. Incentives must be available to the institutions for curbing the menace and there should be disincentives for failure to do so.
4. Enrolment in academic pursuits or a campus life should not immunize any adult citizen from penal provisions of the laws of the land.
5. Ragging needs to be perceived as a failure to inculcate human values from the schooling stage.
6. Behavioral patterns among students, particularly potential raggers need to be identified.
7. Measures against ragging must deter its recurrence.
8. A concerted action is required at the level of the school, higher educational institution, district administration, university, state and central government.
9. Media and civil society should be involved in this exercise.

RECOMMENDATIONS OF RAGHAVAN COMMITTEE

The Committee was constituted under Dr. R.K.Raghavan, Former Director (CBI) to give suggestions for prevention of ragging in educational institutions of the country.
